SUMMARY

I am an E&TC engineer who found his passion for coding and learning during the graduation years and embraced it as a career. I am currently working as a Ruby on Rails developer and looking for new challenges and opportunities. I aim to learn and to imprint my presence in the organizations I work & the society I live.

TECHNICAL SKILLS

Languages

- Proficient in: Ruby, Ruby on Rails, ReST APIs, Java, HAML, HTML
- Familiar with: AJAX, JavaScript, JQuery, CSS, C, C++, Data Structures, XML, Android
- Recently registered on Codewars bearing 68 honors and 6 kyu level under Ruby challenges, detailed profile can be viewed here <https://www.codewars.com/users/md.farhanmemon>.

Software

- Database: PostgreSQL, MySQL
- ORM: Active Record, Hibernate
- Platforms: Linux, Windows, Mac

Sample Code

- A hobby project developed on Rails 5 API to scrape and store HTML tags from websites and another basic blogger app using Bootstrap 3 bearing features like search, sorting, devise login, etc. Source code can be found on github profile link provided above. They are also deployed on Heroku.

EXPERIENCE

Software Developer

November '15 - Present

Mirraw Online Services Pvt. Ltd.

A profitable bootstrapped e-commerce startup company featuring ethnic Indian wear with over 3 lacs listed products, 3 million and counting customers worldwide. In my tenure, so far I have been

- A principal API developer for various Android & iOS apps, which includes new features, bug fixes, and maintaining & improving stability & scalability.
 - Developed various features like automatic server-side triggering of app notifications, full-fledged dynamic referral system, virtual wallet, homepage feed, etc. which helped increase revenue and customer engagement considerably.
 - Integrated 3rd party services like Localytics push messaging for multiple apps with dynamic response and event-driven triggering, Unbx recommendations and others.
 - Implemented Paytm payment gateway.
 - Developed various desktop and mobile webpages including dashboards for 3rd party APIs.
-
